3. CORE ECOSYSTEM FEATURES

3.1 Telegram Mini App Integration

Eliminating complex Web3 onboarding barriers, WatchRec leverages Telegram's native Mini App framework. Users can access games instantly without downloading additional software or managing standalone crypto wallets.

3.2 Retro Arcade Gaming Suite

Players participate in skill-based arcade challenges to earn in-game points that convert into $WREC token rewards upon scheduled distribution cycles.

3.3 Ad-Interaction & Referral Engine

WatchRec introduces an engaging engagement model where users receive boosted reward rates by engaging with partner advertisements and inviting friends via multi-tiered referral links.

4. TOKENOMICS & DISTRIBUTION

The total token supply is strategically allocated to ensure long-term stability, continuous community rewards, and sustainable platform growth.

Allocation Pool	Percentage (%)	Vesting & Purpose
Community & Play-to-Earn Rewards	50%	Distributed dynamically via Telegram Mini App gameplay.
Ecosystem Development & Marketing	20%	Platform updates, ad campaigns, and community events.
Liquidity Provision	15%	Locked in DEX pools to support trading volume.
Core Team & Advisors	10%	12-month cliff followed by 24-month linear vesting.
Airdrop & Referral Incentives	5%	Initial user acquisition and partner promotional campaigns.

Transparency & Compliance Note: The WatchRec Smart Contract is verified on BscScan. All official communication and verified token update details are managed exclusively via the official domain contact address: `info@wrectoken.com`.
